Cloud API

Amano McGann supports the integration of third-party reservation and coupon aggregators as well as command center applications through our Cloud API. This interface enables parking facilities to subscribe to one or more standardized APIs that connect with pre-paid reservations from third-party aggregators or facilitate command center applications for enhanced customer service options. Integrations for Amano McGann's Pro+ Facility Management Software are currently available with the aggregators noted below. New interfaces are continually being added.

FlexPass APIs

- Parking Panda
- Arrive
- SpotHero
- LAZgo
- Chauntry
- spAce
- RepleoTech
- Global Airport Parking
- Pavemint
- Orpical

Command APIs

- Umojo
