Overture-7800 Series

Central Pay-on-Foot Station

The Overture-7800 Series Central Pay-on-Foot Station provides automated revenue collection with the convenience of accepting payment via bills, coins or credit cards, and includes options for touchless payment. This slim, compact device includes self-refilling coin hoppers enabling the unit to easily handle locations that service a high volume of customers. The 8.4" touch screen color display easily guides patrons through the payment process and is approved for ADA compliancy.
