CVPS | **Customer Request Kiosks**

Cash & Credit Card Kiosk Models

Offer your customers more flexiblity with convenient ways to pay for parking and request the return of their vehicle. Customer Request Kiosks (CRKs) can process credit card transactions, player club cards, bank notes, as well as prompt customers to scan bar-coded validations to apply discounts to the fee due. Step-by-step instructions are displayed, making the process fast and easy to complete. CRKs can offer customers the ability to choose a delivery location and can also display current wait time-information.
