Interfaces

Hotel Management Systems

Interfaces currently available for:

We are a Lodging Link Compatible Partner which allows us to interface with Agilsys, Maestro, and over 30 popular Hotel Management Systems.

Features

- Transient and event parking charges posted to guest or group folio on-demand
- All parking revenue posted to permanent hotel folios for accounting consistency
- Real-time data updates from guest folio
- Notification upon guest checkout
- Automatically import Daily Reservation list for direct matching of parker names to guest folio
- Automatically post overnight parking charges to guest folio

CVPS offers interfaces to the most widely used Hotel Management Systems.

Real-time messages from the hotel system convey:

- Guest check in, including departure date
- Guest check out
- Guest room change
