

OPUS-4000 Series

Exit Terminal

The OPUS-4000 Series Exit Terminal communicates with Pro+ and utilizes an encrypted 2D data matrix barcode for expedited exit from parking facilities. The OPUS-4000 Series offers intuitive user guidance through a dynamic color display and voice announcement. The Exit Terminal processes encrypted thermal 2D barcode tickets from the OPUS-2000 Series Entry Terminal, OPUS-4800 Credit Card Pay-on-Foot Station, OPUS-7800 Central Pay-on-Foot Station or OPUS-5000 Series Central Cashier POS Terminal. Mobile credentials and printed barcode passes can be processed through the optional FlexScan QR400® barcode scanner.

Features

- Credential tracking support
- Illuminated components for ease-of-use
- 5.7" color display - sunlight readable
- Voice announcement and intercom
- TCP/IP network connectivity
- Textured powder coat finish
- Upgradeable to add credit card acceptance
- Digital ticket image is captured upon completion of the transaction
- Capable of communications with Genetec LPR system for paid LPN recognition
