

PRO+^{PLUS}™ Series

Pro+Series was designed using the latest system architecture and communication platforms to deliver accelerated system processing and remote device updates. These advanced and stylish terminals are perfect for high-volume locations where a superior customer experience with flexible payment options is a must. Amano McGann's unique, encrypted 2D barcode ticket technology is more secure than traditional

magstripe tickets with the added value of lower consumable costs.

Pro+ Series hardware devices work in conjunction with Amano McGann's industry-leading Pro+ Software to provide a dynamic, real-time view of your assets with accurate, timely data for unparalleled control and management of your facilities.

- Entry Terminal
- Exit Terminal
- Credit Card Pay Station
